How to use

1. Turn on the engine, and see if the product's power LED(left) is lit.
2. Place the device on the "Santafe" logo on the middle of the charging pad.
(It is recommended to align the device to the center of the pad.)
3. A blue light on a charge LED goes on, as charging begins.
4. When the charging is finished, the LED will turn green.
 - ▶ If it is not charging well make sure to align the device to the center and recharge.
 - ▶ Some smart phone or case may not send the full charging signal to wireless charger, in which case the charge LED will remain in blue.

Troubleshooting

The device is not charging.

- Make sure the device is "qi" standard. A Mobile device with the "qi" logo can be charged wirelessly.
- Relocate the device location.
- Make sure the device being charged is full.
- Make sure that something is on the wireless charger.

The charge LED is blinking fast or not lit.

- Find out you have properly connected your device with the appropriate wireless charging case, or foreign objects are inserted between your device and wireless charger.
- Relocate the device location.
